

RIVET TIRE RACK

ASSEMBLY INSTRUCTIONS

READ BASIC RIVET RACK ASSEMBLY INSTRUCTIONS BEFORE ASSEMBLING

1. Construct 8' side uprights - Install side double rivet beams to 8' angle posts. Space bottom double rivet beam from floor to prevent tires from touching floor.
2. Install front & rear tire support beams to 8' side uprights.
3. Attach an inverted support tie to the center of front & rear beams three places. (OPTIONAL)
4. Install side single rivet beams above side double rivet beams on 8' side uprights.
